### [Old VHS recorders could cause long delay echoes](#)

Over the next few weeks, Tommy heard several LDEs, some with separations as much as 3 or 4 days and during this time made several recordings of the events.

[VE7SL](#)

### [A look inside the NR5M super-station](#)

The sun was just setting and I'm sure I had a stupid look on my face as I saw the towers rise over the horizon. What a sight to behold.

### [Another June VHF Contest In the Bag](#)

6m had sporadic-e openings very late both evenings, about the time I was ready to give up. Fortunately, I stuck with it and made quite a few contacts late into the evening.

### [The MS Bike Tour on APRS](#)

Each of the mobiles that were assigned to the various checkpoints with an APRS tracker on board had their APRS trackers programed with a tactical callsign that appeared on the screen of my netbook running APRSIS32 with open-street-maps.

## **When all else fails**

The chaos that would ensue would be mind boggling. Not a happy thought.

[W2LJ](#)

## **Baofeng battery test results**

The tests were conducted to determine the best long life back-up AA battery solution for the Baofeng HT.

[Fo Time! The Other Ham Radio Podcast](#)

## **Letters to Congress offer biggest boost to Amateur Radio Parity Act**

The most useful action radio amateurs can take is to contact their members of Congress, urging them to sign on as a bill cosponsor.

[ARRL](#)

## **Ham Radio can bring Morse Code back to the high seas**

Recently, the FCC granted amateurs access to a portion of the historic maritime radio band where most Morse code communication took place. This grant means that people will once again communicate regularly using Morse code around maritime channels at 472, 476, and 478 kHz.
